AFFAIRS IN MEXICO.

thar City of Mexico Correspon Mixico, Nov. 1, 1858.

The Departure of Mr. Porryth from the Capital-Studies ments to Him-His Hotel Filled with Policemen-An Moort Insultingly Withheld-Preparations for an American Guard-Attacked by Robbers on the Road-General bondation of Mexico-Priests in the Ascendant-No Hop from the Present Parties, de., de-

On the 16th uit. Mr. Forsyth gave notice to the Mexican severament that on the 20th he would be ready to take he departure from here with his family, and asked for the road escort to protect him from the robbers, which and already been promised. On the 17th he received a reply-brought to him by the Chief of Police-that the ort would be ready for him on the 20th, and that that escort should consist of a corporal and two soldiers, to be reated on the box of his diligence. Your readers who do not know this country may not see the insult in this tendered escort therefore let me explain. In ordinary times afteen horsemen, with lances, muskets and pistois, are given to travellers; but owing to the present insecurity that number should be doubled. On the arrival of Mr. Otway, the present British Minister, an escort of fifty horsemen, well armed, were given to him. The insult of offering three ragamuffins, with musicets alone, when there are known to

well armed, were given to him. The insult of offering three ragamuffins, with muskes alone, when there are known to be bands of thirty robbers on the road, is therefore most clear. Mr. Forsyth very properly declined the tendered excert, and made up one of his countrymen, on whom he could rely for protection. The change in his arrangements necessarily caused some delay, but he managed to make it but one day more, and he prepared for departure on the 21st. The government varied with jealousy his movements, and scent to have determined on giving him annoyance to the last.

The night before the departure the Chief of Police threw his guards all around the hotel from which the different corridors, and at the front door, and at the gale in the rear. What a sight! Innocent lodgers in the hotel and strollers in the streets were attracted by this display of armed force, and the inquiry run through different little knots of people. "What is the matter?" "What's up?" "Is there a criminal in the house?" &c. To this the only reply was, "the American Minister is going of." The Chief of Police swaggered about, and I think there were but few who looked upon the scene but though the American Minister was to be thrown in prison. The continued from nine in the evening until near levelve o'clock. The cause of all this display was the circumstance that a man who feit under one of the forced loan decrees had taken refuge in the United States Legation. He had there not been molested, and now that Mr. Forsyth was about to depart, the poor mercenary wretch had tried to get off with him, and the government scheed the opportunity to scandalue the representative of the United States. I cannot say if Mr. Forsyth had scriously compromised himself in this man is affairs, but if he had, that should have been a matter of complaint for this government to make to the government at Washington, and not cause for insult to the representative of his chief some asked of him in the morning of the same day—and at two o'clock. A. M. the disgences starte

suited without outraging and insulting the flag he represents. He has gone from here, and now let me glance at his course on the highway, where he takes to his feet to repel the bandith the government cannot restrain.

During the first day, at about 10 A. M., robbers appeared on the road, a short distance beyond Rio Frio The diligences were at once ordered to stop, and Mr. Forsyth and the male portion of his parity took to their feet. The robbers were at some distance, and appeared deternanced to hold their ground and accomplish their object.

Mr. Forsyth's party were in order for defence, and the robbers. I suppose, seeing this fired upon them, and a fire was promptly returned from the American Minister's party. With this the robbers ran, and the diligences resumed their course and arrived sifely in Puebla. In this little combat no one was killed on either side.

From Puebla to Orizaba we learn the party passed in safety, but whether robbers presented themselves is not known. Prom Orizaba to Vera Cruz we suppose the party has pessed in safety, although that is not yet known.

We learn here that Soperons, the gentleman who paid \$50,000 for the privilege of going with Mr. Forsyth, was stopped at Orizaba by an order from the government here, and the sum of \$60,000 more exacted from him.

The general condition of the country has not materially changed since my last. Vidaurri, for the time being, is silent, in fact, we do not know here exactly where he is. In the last notice made of his movements by the official giver of this capital—and therefore false—it was said that he was "running for the frontier at the rate of fifteen leagues per diem." Regoliado, with his troops, is hanging about Guadelajara. Colima, Chinabina, Durango, Zacate-car and Sonora are now spoken of in this "hermon capital" as you speak of Affichanistan or Independent Tartary Old Alvarez remains at his baciends, always threatening to come up, but never coming. Garza, in Tampico, is playing a separate of Affichanistan or Independent Tartary Old Alv

not rafe to stand up in the screets. Every one is expected to kneel down in the presence of the imageries that are carried at the heads of processions. The other day a procession was moving by one of our public houses, the deors of which were crowded with spectators, most of whom kneeled, but two remained standing, paying, as they thought, due respect to a ceremony they did not believe in, by taking off their hats. A priest at the head of the procession ordered them to kneel, with a vehemence that more became an enraged negro driver in ordering slaves than the Christian expositiation of an aposition of the procession ordered them to kneel, with a vehemence that more became an enraged negro driver in ordering slaves than the Christian expositiation of an aposition of the procession of the standing gentlemen not failing down like vastals, the priest violently shook a massive golden cross to heaven, and after calling down anathemas upon their beads, in the name of Jesus Christ declared them excommunicated. This operation caused the whole procession to stop, and created a scandal before a multitude of people most disagreesable to the two gentlemen, whose modesty and good manners would have forced them even to kneel in a public street, is presence of a religious procession, rather than to have been made the objects of so looch disagreeable attention. This is the first time in many years that the priest have direct to go so far, and if this act be sanctioned by the government, as it must be, rrom the fact that now the clergy are the povernment, may we not be alarmed at their audacity, and justly fear that they are not idity taking when they speak of the restoration of the Inquisition?

From the abortive attack of Bianco upon this city, from the defeat of Vidaurri near San Luis Potosi: from the outrages and piracy of Garas at Tampico, from the inction of old Aivarra for the last year, and from the democralization of all the strolling bands of lederalists throughout the country, I consider the hope of any great good co

FINANCIAL AND COMMERCIAL.

The news from Europe per Africa, which arrived at this port this morning, is to the 13th. Its leading features are, a check in the decline in cotton continued doliners in breadstuffs and provisions, an improvement of 1/2 a 1/4 it consols, and generally a tendency to a more healthy con-dition of general business. The accounts from the manufacturing districts are more cheerful. In respect to money, the demand for it continues alightly to increase, and rates are firmer, the minimum being rather over 234 per cent in London. Gold continued to flow to the Contnext, but loss freely than before. The Bank of England had lost during the week £110,008 in specie, say \$550,000. the Bank of France during the month, about \$4,600,000 all or mest of which naturally found its way to Vienna. The impression appears to prevail in morevalue, and that the requirements of commerce will soon absorb the capital lying at present unproductive in the banks. The advance in comols is partly ascribed to rumors of a reduction of the French army, and partly to the operations of a party of speculators, who are said by the London Times to have combined together to buy for the rise. The last statement of the Bank of England is a

The return from the Bank of England for the week ending the 16th of November gives the following results when compared with the previous week.—
Public deposits 16.673.581 Increase 597,140 Other deposits 12.20068; Increase 40.005 Rest. 5,140.002 facrones 36.106 On the other side of the account — Covern't security 11.875,380 Increase 10.187 Other securities, 14.697,722 Decrease 110.187 Noice unempt'd, 11.327,380 Increase 110.187 Noice unempt'd, 11.327,380 Increase 26.255 The amount of notes in circulation is 230.099,005—being a decrease of £272,810, and the stock of builton in both deporterions is £18.502,827—showing a decrease of £110,008 when compared with the preceding return.

The London agents of the Illinois Central Rallway Compuny had communicated to the shareholders the following etter addressed to them by a member of the recent depu-

ietter addressed to them by a member of the recent deputation sent from London to New York:—

Loxros, Nev. 10, 1888.

Gentismen:—As numerous inquiries have, I understand, been made as to the result of the mission to the lithios Central board, with which I was (with Mr. Wheeler) charged by the London committee of shareholders, I think it may be useful, in the absence of the chairman and the larger part of the committee, to inform you that, owing to my time having been so incessantly occupied in the United States, I was not able to prepare my report until my return to England. I have sent a draft of it for the approval of my colleague, (who resides in the committee which has been summoned for Toesday next.

I think it may be of interest to the shareholders to know, in the meantime, that from the most careful estimates of the President (Mr. Osborn) up to the end of 1859, and from the best consideration which I have been able to give to the subject, I am led to the conclusion that no call will be needful during that period, but that any deficiency occasioned by the continuance of low prices of grain and depression of trade may be provided for by the adoption of other and perfectly legitimate means. Yours, faithfully,

Messre, R. Bosson & Co.

The stock exchange to day was even duller than usual

The stock exchange to-day was even duller than usual at this season. Prices seem gradually to be giving way. It is natural that the nearer the country approaches to a recovery in business, the less disposition should exist to ase money in lending on stocks which any revival of commerce, or any political disaster—such as a war with Mexico—would inevitably precipitate to much lower points than those now ruling. The demand for State stocks this morning was smaller than usual; prices were just about maintained. There were few transactions in bends; Hudson thirds—one of the best and cheapest securites on the list-improved, 34: La Crosse Land Grants were lower. In Bank stocks there was very little done. We note an advance in Park and Continental shares. Among the speculative stocks New York Central was the most active-it closed about & per cent lower than yesterday. The Western shares were generally steady, with the exception of Michigan Central and Illinois Central, both of which declined & Reading was weaker, and the stock more plentiful; the decline is equal to 🚉 for the day. Hudson River was also 🛬 per cent lower, with very few transactions. Panama was & higher : Pacific Mail-no word of the long deferred divi dend being yet spoken-is 36 per cent lower. Cumber land was sold this afternoon at 21, and offered at that price afterward. There were transactions this morning in the stock of the American Guano Company. We un-derstand that the White Swallow arrived to-day with 1,200 tons of guano on board, thus establishing the feasibility or of the day were—Missouris, 89% a 90 New York Central, 82% a %, Erie, 16% a 17; Hudson, 33 a % Beading, 51 a 32 Galena, 7234 a 34 Rock Island, 62 a M. Illinois, 79 a 34 Panama, 121 a 34 Pacific Mail, 103 a 34 The

market closed beavy. The exchanges at the Bank Clearing House this morning were \$16,015,447 39, and the balances \$1,140,513 65.

We are informed from an official source that the couons due on the 1st of December, 1858, on the first mort gage bonds of the Buffalo, New York and Eric Railroad Company, will be paid on and after the day named, on presentation at the Bank of Commerce in New York. The Cincinnati Gazette of Wednesday says:-

The Chemnati Gardie of Wednesday says:

A call has been issued for a meeting of the stockholders
of the Onio and Mississippi Railroad Company, for Wednesday next, at the office of the company in this city, te hear
a report from the committee appointed at the last annual
meeting and to consider a proposition for a capitalization
scheme. This will be an important meeting, and it should
be fully attended by bondholders and stockholders.

The Peoria Transcript of Saturday last says the Deputy United States Marshal had taken possession of the rolling stock on the Peoria and Oquawka Railroad, by virtue anthority issued by the United States Court, on account o a debt due the late firm of N. B. Curtiss & Co., of that city-The unnual report of the Bultimore and Ohio Raliron; for the fiscal year ending 30th September last contain-some agores which deserve careful study. It is known that, besides the main stem from Baltimere to Wheeling the company owns a branch rood to Washington and enother branch road, called the Northwestern Virgin a branch. The aggregate revenue of the three roads was

fell of \$700,515; the Washington branch having increase-

inst fiscal year. \$4,575,01: Year cuding 30th September, 1807 5,146,88:

The working expenses on the three roads vary singular ly. Those on they, runse on the \$2.531.190 or 65.6 per ce:
Washington branch 292.455 43. % do
Northwestern, Va. 283.252 102.12 de

Total working expenses . . . \$2,986,604 The business of the Washington branch is chistly a pa-senger and light freight business: the fares are high, asthus the expenses are comparatively light. On the man stem on the contrary, the faces as on all the great lin-from the scabbard to the West, are low, and freight epecially has been carried below remunerative prices. A compared with last year, the working expenses of the main stem have increased over 5 per cent, from the simple reason that the per centage of working expenses increas-

in proportion to the decline in gross receipts. The following statement of the condition of the Brooklyn

The Chemnat: Inquirer of the 22d says.—
The Trust Company case was again taken up yesterday morning in the United States Circuit Court, and Judge Hoadly completed his argument for Sheriff Mathers, when, on motion of Henry Stanbery, Samuel J. Breadwell was discharged, having purged himself of contempt. Mr. B.'s counsel had fully prepared themselves to argue the matter at length, and were a little disappointed in losing an opportunity to display their legal lore. The case will be continued on Monday next, Sheriff Mathers being the party before the court.

DRY GOODS TRADE.

The following is a comparative statement of the imporof foreign dry goods at New York for the week and since January 1:-1856. 1857. 1858. \$825,538 556,638 344,222 1,045,506 228,614 423,277 For the week. Entered at the port. Thrown on market

Nince January 1. Entered at the port. ... \$86,357,437 88,085,031 54,392,519 Thrown on market... 85,482,162 79,972,851 62,129,495 By the above table it will be seen that the outries of dry goods at this port for the past week have fallen off materially as compared with the entries of the previous week, and are below those for the same week of the two week, and are below those for the same week of the two previous years, and especially those of 1856. The amount thrown upon the market, though in excess of the same period last year, is yet largely in arrears of that for the same week in 1856. The behalf those for the same time in 1856 and 1857. The business doing in the jobbing line the past week has been light and irregular, but rather more lively than usual at this season of the year. This has been owing, mainly, to additional orders said in from the South and Nouthwest. In the meantime the city retail trade has been in fair activity. A good spring business is anticipated with the Southern and Maidle States, as well as with the older States of the West. Owing to the failure of crops in many parts of the Northwest, together with the depression in flour and grain, it will require another good crop and better prices, induced by a better export demand, before that part of the West can fully recover. Hone, the main reliance of the trade next spring will rest upon the planting States, and upon the Maidle and older Western States. Cotton this week has taken an unexpected upward movement, having gone from about 11½c. to 12½c, for madding uplands, equal to an advance of ½c per lb., or to about 92.50 per bale, which, should it be maintained, will said largely to the value of the crap remaining in the country. It will also, should it be maintained, not only check any tendency which may be aspechensed towards a decline in domestic cotton goods, but most likely lead to come on honecement it prices. The business doing in cotton piece goods has been irregular, but in the main prices have been steadily maintained. The stock of drills has accumulated, owing to the prevailing light export demand. Some lots have been disposed of for China as \$1½c, for lerown, and brown sheetings and shirtings were selling to lot as \$1½c, white the stock was reduced. Fine browns were in light supply, and prices have been fair demand, to more the wants of clothers engaged in manufactoring for th previous years, and especially those of 1856. The amount thrown upon the market, though in excess of the same

Correc.—The sales embraced an invoice of Rio, comprising 1,400 bags, at 11c.; 150 do. St. Demingo, at 9%c. a 9%c., and the balance of the carge of 2,500 bags do., 1,000 of which were reported yesterday all at p. t. Corron.—The market was again firmer, with sales of about 3,000 bales, closing firm at 12c. for middling uplands, with some sales reported at 12%c.

Ferrance—Engagements were light. To Liverpool, 500 bbls. rown were taken at 2a. 3d.; other articles unchanged and engagements light. To London, 60 boxes tobacco were taken at 3s. 3d., and 30 tieroes rice at 25s. To Glasgow, 75 bbls. spirits turpentine were taken at 8s. To Havre, some cotten was going forward at %c. There was no change to notice in rates to Australia or to Californs.

tobacco were taken at 3s. 3d., and 30 tierces rice at 25s. To Glasgow, 75 bbls. spirits turpentine were taken at 8s. To Havre, some cotton was going forward at \$\frac{1}{2}\epsilon\$. There was no change to notice in rates to Australia or to California.

FRETI.—The market was steady for raisins, with sales of about 500 boxes at old prices.

Hav.—Sales of about 1,500 bales were reported at 50c. per 100 bs.

Hines.—The market has been active and firm, and some heavy sales to arrive have been made. A cargo of Montevideo which arrived this week were sold previous to arrival. A cargo of 7,200 Orinocos which arrived are held at 25c. The sales are:—22,000 Buenos Ayres to arrive, on private terms; 6,000 Maracaibos, do.; 4,000 Barcelona, do.; 2,000 Chagres, 18 bes., at 23c., six months; 2,600 dry salted Maranham, 28 bes., at 19c., six months.

Lines was firm, with small sales at 75c. for common, and at \$1 for Rockland lump.

Motasses.—Cuba musecovadoes were inactive; 90 bbls. New Orleans syrup were sold at 45c.; 100 do. haif bbls. molasses at 41c., and 100 bbls. do. at 40c.

Navat Storms were quiet and sales unimportant.

Ons.—Linesed was selling in a small way at 60c. a 61c. Sperm and whale were in fair demand, and prices unchanged.

Provisions.—Pork—The demand was good, especially for future delivery. The sales on the spot embraced about 200 a 300 bbls. including mess lat \$17 35 a \$17 40, and prime at \$13 50 a \$13 75; included in the sales were 1,000 bbls. mess, reported deliverable in January and February, at selter's option, at \$17 68; and 1,000 do., deliverable within the same period, at buyer's option, were reported at \$17 75; and 500 do., deliverable from 1st January to 1st March, at \$17 75. Beef was in moderate demand, with sales of 200 a 300 bbls. including country prime at \$6 50 a \$7; country mess do. at \$8 a \$9; repacked Western do. at \$9 a \$11, and extra do. at \$11 50; a 10 \$4c., and grices were unchanged.

Roc.—Sales of 300 casks were made at 3c. a \$3/c. \$150. Cut meats and baroon were quiet, while sales wer

over and prices generally leaving no margin for specula-tion. The sales embraced 31 hbds. Kentucky at 10c. a 11345 148 bales Havana at 27c. a 32c.; 142 de Yara, 334c. a 35c.; 60 cases seedleat, 14c.; 23 do. Florida, 15c.

1995. a 35c.; eo cases section. 190c. —The market has been more animated the pre-Woor.—The market has been more animated the pre-Woot.—The market has been more animated the pre-sent week, and some large transactions have been made. Prices were fully sustained and holders firm. Sales 700 bales African unwashed, no price given; 334 do. Califor-nia, 14c. a 20c., 6 months and cash; 165,000 lbs. fieece on private terms, but fully up to quotations; 70,000 do. pulled, 34c. a 40c., cash.

OUR FAMILY MARKET REPORT. UNUSUAL CHEAPNESS OF POULTRY-LOWER PRICES FOR MEAT, ETC., ETC.

The unusual cheapness of poultry, and especially of that greatest and most delicious of the gallinacoous species, the turkey, is the feature of our market report to day. For twenty years previously, according to old mar ket men and provision dealers, poultry has not been as cheap as for the last few days. Fine dry picked turkies were selling yesterday in market for 10c. per pound while the inferior sorts could be had for 8c, and even 7c. large lots of chickens were sold for 5c. and 6c. per pound. and in some instances they were retailed at that price.

Ducks, but a short time ago selling for 16c. and 18c. per pound, were offered yesterday without buyers for 10c. and 12c. Strangely enough, geese, which always rates lowest among poultry, now command as high a price as the best turkies.

cilling their poultry and will save them for the holidays when, no doubt, they will be high enough. It would be

when, no doubt, they will be high enough. It would be well, therefore, for all who like good turkies and chickens to gratify their tastes while they can cheaply.

Meat is down, in consequence of the cheapness of poultry. Sides were selling yesterday for as low as 5c., and a sale was reported at 4/3c. We do not find, however, that the retail butchers have discovered that prices are down, as they show a disposition to sell as high as ever.

There is scarcely anything new to note in fish. Perch and other fresh water fish are plentiful, but command good prices. Eck are also down a little. Dealers complain of dull times.

Fotatoes, in the language of the marketmen, are "stifled"—that is, femer. That is, they are not much dearer, but are held firmer. Peach blows, now in market, have come from the northern part of the State, and are not as good as those which come from Jersey; consequently norcers sell almost as high, and both varieties sell 12c. per bbt, higher. Other vegetables are cheap enough for the season. Tomatoes will seen be "played out." Some very large pumpkins have been on exhibition in the chy—one weighed 110 and another 120 lbs.

Applet this year are a failure, both as to quality and quantity. They are getting dear very quick.

Butter maintains the same prices. Eggs are very dear, setting as high as 27c. per dozen.

soling as high as 27c, per dezen. Aspexed are the

COLIMON—As the ship Gentoe, for Boston, was towing in the East River yesserday morning, she came in contact with the Hamilton avenue ferry boat Union, which was damaged in her joiner work. None of the passengers were injured.

LAUNCH—The beautiful steamer Fire Witch, built by Mr Thoc
Collyer for the Chinese waters, will be launched this afternoon
at 5 clock from his yard foot of Forty third street, East River.

A fine view of the launch can be had from the high grounds

overlooking Mr Collyer's yard.

New Strawshir—The new steamship Kensington, to run in connection with the Phiners Sprague and City of New York. between Boston and Philadelphia, returned from a trial trip down the Delaware river on Thursday afternoon, having, as is reported, proved herself to be one of the fastest steamers affect.

reported, proved herself to be one of the finatest steamers adjoat. Her machinery operated with great amountness. Her cabina are inted up in the most coatly style; the promenade deck extends throughout her entire length; and she will doubtless become a favorite with passengers. Her length is all6 feet, beam 23 feet, and depth of hold 18 feet.

Werers or a Same-Reports had reached Honolulu prior to the 7th ult, of the discovery of an unknown whaleship. It was observed on the southeast extremity of Gore's Island, by the rew of the bark Jirch Swift. Cap Earl, of that vessel, reports: "When they returned on board, they reported having seen the wreck of a whaleship on the North Shore, but so much broken that it was impossible to ascertain anything definite concerning it. An avalanche of earth and needs correred a part. There was a considerable quantity of bowhead bone and some right whalebone lying there. All the rope they saw was of American manufacture, and the safe were made of cotton duck, composition thinhies and money fined from clews. They brought off a boarding knife, carving Kalie and a kind of spear, set in a bickory pole. These are all the particulars, and I leave it for wiser brads than my own to decide what shin it must have been premising than on shap has been lost for a number of years in these seas except the Indian Chier, of New London, in August, 1857, and she was lost the handred miles North of Gore's island; still it must be her. MISCELLANEOUS.

FANCY FURS AT WHOLESALE.

AT WHOLESALE.

BALLARD, SHUTE & CO.,
No. 46 Broadway.
New York,
Would respectfully announce to joobers and retailers accustomed to purchase furs in this market, that notwithstanding the very general, if not quite universal, practice adopted by the wholesale manufacturers of this city within the last welve months, of throwing their stocks open for retailing purposes just so soon as the senson for consumption arrives, and still expecting the regular retailer and even the jobber to continue their custom, they cannot believe either in the NECESSITY, JUSTICK OR POLICY of the same, but, on the contrary, do still believe in the ability of the trade of this city to support at least
ONE STRICTLY WHOLESALE HOUSE.
To this end they now invite the attention of all those in any way interested to their very complete stock of LADIES FANCY FURB,
embracing the richest as well as the more common varieties
GENTS MUFFLERS, CAPS, COATS,
GLOVES AND FANCY ROBER,
all of which they will sell to such buyers as are in favor of fa competition and legitimate business.

VERMIN DESTROYER.

MEYER'S

MIRACULOUS

VERMIN DESTROYER,

WITHOUT THE USE OF POISON.

The chemical preparations known under the above tile for the last twenty two years, in almost all parts of the Okt World, and now interluced into the United States, where they have already met with a trumphant success, have acquired for their inventor and manufacturer a world-wide eelebrity. His extraordinary services have been employed by the fourts of Kussia, England, France, Austria, Frussia, Bataria, Saxony, Belgium, Holland, Napies, &c., &c., from mess of whom he has received honorary tiles and hippointments, as may be seen from his ciplemas, ceruitentes and other decuments.

The medical faculties of the most celebrated European universities have examined them preparations, and to their reports declare them to be "perfectly".

The effect of his remedies is truly miraculious and unit thurned by climate, season of time, as has been proved by his irractical experience of twenty-two years' slanding in different parts of the globe.

norse of the globe.

For the greater convenience of the inhabitants of New York

Nr. Meyer will make annual contracts with the proprietors o
bouses, manufactories, hotels, warehouses, granaries, hever

vies and gardens, the superintendents of public buildings, hepitals, almshouses, prisons, station bouses, Ac., Ac., by which

e engages to purify their establishments from all sorts of ver-

the engages to purify their establishments from all sorts of vermin and

SERT THEM THEM THOSE THOM IT PERMANENTLY.

The general depot for Meyer's miracelona vermin destroyer is located at 612 Broadway, corner of Houston street, where contracts may be made, and where the several preparations, together with the detailed instructions concerning their use, may be had for price, frod the several preparations, may be had for price, frod the Chandra of the Section of the Condess is PERENTERICK V. SUSHITON, Prengiet.

No. 10 Astor House, and 417 Broadway, corner of Ganal street, New York.

For sale by F. C. Wells A Co., 115 Franklin street.

10. Mrs. Hays, 175 Fullon street, Brooklyn.

10. Lo. J. Wright A Co., New Orleans.

The preparations will also be sold by all respectable druggista in the United States.
